LANDONBATH

ELIO Series

DF-4905 Wall Mounted Basin Faucet

Technical Specification

Product Description

The DF-4905 from the ELIO Series is a contemporary wall mounted basin faucet designed for modern residential and hospitality bathrooms. Featuring a clean cylindrical profile and concealed installation, it provides a refined architectural appearance while maximizing countertop space. Constructed from solid brass and equipped with a premium European ceramic cartridge, it delivers smooth operation, soft water flow, and long-term durability.
